

“The Message from God to Humanity”

End Times – Judgement – Preparations

The Transition of Earth into a New Earth

Who is capable to bring such an 'End Times' message to Man? Perhaps, someone as prophesied by a man called Jesus Christ. “From God, I shall send the new comforter, the spirit of Truth.” But, who would listen to a human being living among 7.7 billion people. Who speaks different, simple and clear Words about Love, Peace, Harmony, and describes in detail God's True Will and High Works?

A huge predicament for this Man as the Messiah, and the world population. If people do not find the Messiah, they shall not be Redeemed of Sin, shall not be Ready, and their Souls cannot be Saved. Therefore Scriptures have told Man to Watch for his coming, to be a watchman. What does it mean to be a watchman? It means you research them, who claim to be the Messiah, to find the real One.

Then a new predicament arises. How is Man able to recognize the Man who is Christ, the new and real Messiah? All religious people state, this Messiah should be as predicted in their scriptures and speak in words of their own religion. But, there are many religions, which One is the right One? Even scripture warns, that this generation, all people, shall reject Words of the real Christ, Messiah.

If all people of this generation shall reject Christ, the Messiah or called by many other equal names, then it means that none of the scriptures were completely right. Hard to hear, perhaps you think my tongue speaks like a double edged sword or these Words sting like a scorpion. Then, you are right. A Messiah speaks God's Truths and is revealed when science, religion and spirituality become One.

The new Christ, the Messiah is able to explain God's True Will and High Works in simple and clear Words, which were never understood in the lower works of Man's Prophets. In such Words, that everything for everyone starts to make sense. I have tried to inform many rabbi's, pastors, imams, religious, spiritual and non-religious people, still these Words of God can't pass their ego and pride.

Again, I shall reveal Truths of Life to you in this letter, what is happening, what is going to unfold in our world and to reveal God's Plan. If Man reads this letter with ego and pride, then they think “this person wants to elevate himself to become famous or rich”. The contrary is true, I only desire to guide Man to show them the narrow path, to Save their human Souls a lot of suffering and time.

The End Times is here, signifying that judgment is at the doorstep of every person on Earth. Still, Man is Not Ready to handle that, what is unfolding in this human life or even after death of their human vessel, living as a human Soul in their In-between life. My task, given by God, is to try to inform Man with God's True Will, to help and guide Man in life, to lift and Save their human Souls.

To teach how you can redeem yourself from Sin and how you can raise your human Soul to a higher energetic frequency, to be able to be protected during the dire ordeals. This way you can endure the ordeals, shall be judged Worthy, become a Chosen One and are able to walk the narrow path into a restored New Earth. Or after your flesh dies, to enter the narrow gate into the Kingdom of Heaven.

Judgment in the unfolding Apocalypse shall select precisely all Wicked and/or Egoistical persons, and they all shall leave Earth. Only Worthy Chosen Ones shall live and inherit New Earth. Nobody really dies, because everyone has an eternal life as a Godly Soul (=Holy Spirit). If the Apocalypse would not happen, Man in a nearby future would destroy Earth and exterminate all of Mankind.

The unfolding Judgment has never happened before in our known history, and for that reason the reality of this event is difficult to accept for Man. Man cannot see God's Works in a High, Loving and Perfect light, because Man lacks knowledge and wisdom which were not known by Prophets. God's High Works shall be explained in simple words, so a Soul's and Man's life shall make sense.

From my experiences I know many Man shall think, "this cannot be real, this cannot be happening", and shall look for excuses to ignore, deny, discredit and reject this information. But, ignoring the Truths of Life means, you are not preparing for the unfolding and unstoppable Change of Earth into a New Earth. Why is this information important? Because, I can show you a path to Save your Soul.

Why is Saving your human Soul by God's True Ways important? If you have a True Saved human Soul, you are able to survive dire ordeals on Earth and enter a new civilization in a restored New Earth. Where people shall live in Harmony, Happiness and Health without Sin and almost all ego. All others, who were Not Saved into a purified human Soul shall die in the ordeals and leave Earth.

The second reason to Save your human Soul by God's True Ways. When a human vessel dies, the human Soul shall resurrect in the In-between dimension, between Earth and Heaven. This human Soul has still their own thoughts, memories and personality. If Earth has changed and all people you knew died too, it shall take a long time to resurrect in an In-between life and you are temporary lost.

Perhaps you have never thought about life after death, and what you have to do in your In-between life, before you are able to return to Heaven. If Earth is changed in a New Earth, it is very difficult for the human Soul to find their path to Heaven. Everything you learn now, shall help you, to know what to do in your real In-between life after death. To Save your Soul from lost time and suffering.

Lost time can last decades or centuries until you remember thoughts, memories and personality of this past human life again. Then you have to do the mistakes of your human life over again and again. You shall experience all the pains and sorrows you have caused to others on Earth, to learn from your mistakes. In this In-between life you have still to purify your human Soul into perfection.

How this process exactly works, what happens after death, is revealed below in God's Creation of Life. Based on the Messiah's small Book of Life, The Age of Harmony 2025 - 4185. This Book guides you to become Awakened and Alive, and you can learn how to become a Chosen One, and to know after death the narrow gate into Heaven. Describing for everyone in detail Man's Salvation.

The unfolding ordeals are a disaster of world-wide sickness created by Man among Man, a world-wide economical collapse, persecution of people, chaos, starvation, a world war 3 and finally the Apocalypse as the Great tribulations described by John in the Book of Revelation. The pole shift is created by two celestial systems and shall happen very soon, to restore Earth into a New Earth.

Allow me first to present Man's Plan, which shall fail miserably. Then I shall show you how God's Plan is designed and shall succeed in high and extreme perfection, to sustain Mankind and Earth. God gives Man in this Message, the Clarification of God; what is happening, what shall unfold on Earth and how Man can Save their own human Soul and human life. Man has always free will to make their own choices, to prepare well for that what is unfolding, or not. Without Repentance by Works there is no Salvation for anyone, in this human life as Man, and/or in your real unknown In-between life as human Soul. You have to do the Work, if you desire to return as Soul into Heaven.

Man's Plan for our human world society

The World has been conquered secretly by a hidden, dark and evil world government, who pulls the strings on Earth. This secret government called Deep State, Shadow Government or New World Order is in definition based on world domination and satanism. They control the whole wide world, military, secret agencies, courts, pharmacy, police, politics, economics, media, religion and science.

The literal sovereignty of countries with democracy stopped to exist many decades ago. They play a theatre, in which they create all kind of opposing narratives for people to choose sides. They control all sides to lead people into their desired goals. There are different agenda's on three levels, so they are able by deception to control the population. People are not aware of this final and evil Agenda.

The world society is by their corrupted leaders pushed into a funnel, that leads into sickness, chaos, death, total control and a New World Order. In which you have one group of families of these One World Order running the world. They desire to have 500 million slaves to work for them. With jabs they have placed devices, to change Man's behaviour and can by desire and 5G, terminate this life.

In scriptures this event is described in the Book of Revelation, what is called the Mark of the Beast. People who take the mark, the jabs, give voluntary their human lives to these evil world leaders. They give permission to decide over their human lives and thoughts. These Jabs cause sickness's, sterilization and death of the human population. The inoculated people shall all become infertile.

What creates a total control over the world population for this New World Order. Man shall say in their ignorance, "but it should be a chip in a hand or forehead". No, the mark is placed in the arm and goes through blood vessels through your whole body, including your hands and forehead. These evil people have studied prophecies also and try to fulfil them, in their planned and deceiving ways.

Man is destroying Mankind and Earth. These evil leaders believe depopulation, sterilization and enslavement are the only possibilities to control the world population. To create a good life for their offspring on Earth. In their science, they know the Apocalypse shall unfold very soon and therefore they have started the operation of a dire End Game. Which leads to a dictatorial evil world regime.

Because the nearing of two celestial systems causing the unfolding dire Pole-shift, incoming of ten-thousands of meteorites, reshape of the Earth crust, fires happening everywhere, rising magma into lava, huge earthquakes, tsunamis, eruptions of volcanos and much much more, they have created underground bunkers and cities to protect only their people for the soon unfolding Apocalypse.

Before the Apocalypse, they shall try to enslave all human beings with Jabs, to have control over them after the Great Tribulations. Nobody in their science knows exactly how the Apocalypse shall unfold. Therefore before the Apocalypse they shall create chaos, starvation and world war 3, to let people and soldiers kill each other, to make sure most people shall not be able to survive on Earth.

After the Apocalypse when it is safe, they have planned to come above ground, take control of the survivors and to create their New World Order. These evil plans of Man is created by Man's leaders who desire to take over humanity and Earth, to become their own Gods on Earth. Sadly, these evil persons do not know God, and how God has designed our universe to stop this Madness of Man.

These evil Man have deviated from God's path with support of the main population of Man. Do not think it is them, and not you. Because all of Man are responsible for all deeds of Everyone on Earth. All of Man are an individual AND at the same time literal part of One Collective society. It is not about results you achieve on Earth, but it is all about living Holy and Loving intentions of God in your hearts. After 12 Ages of Man's free will, there shall be an Intervention to restore life on Earth.

God's Plan for our human world society

God designed for our Godly Souls to experience through a human Soul a temporary human life. In which we are able to experience as Man, a Little Bit, of Man's ego, greed, unhappiness, disharmony, lust, pride, sickness or negative emotions with all upset, bad and sad feelings. If Man can shortly experience these kind of emotions and feelings, Godly Souls and Man can learn the full meaning of how wonderful it is to live constantly in Harmony, Happiness and Health in Heaven, or on Earth.

As above in Heaven, where our Godly Souls normally live by unconditional love for everyone in Harmony, Happiness and Health, so should it become below, within Nature on Earth. Our human vessels are created for our loving Souls and Not for a wild ego perspective. If you scratch your skin by a branch of a tree it regenerates itself perfectly. If you break bones by ego, it does not heal itself.

What does it mean, we live in the End Times? Everyone uses these words, but no-one knows why. What is ending in these times? If you see the sun rising, setting and rising again you've witnessed a cycle. Just like the seasons starts, ends and starts again. These cycles exist also in astrology of our solar system and also in a galaxy. An old cycle of 12 Ages ends and a new cycle of 12 Ages begins.

The Main Cycle of Life lasts 12 Ages, of about 2160 years per Age. In the year 2025 September a new Main Cycle of Life of 12 Ages is starting again. The End Times means the end of the old Main Cycle of Life in the year 2018 into 2025. What is called Tribulations, or Judgment of Seven years. Why is the Main Cycle of Life designed by God? To make sure life evolves and to protect Earth.

What literally means, Man with free will had 12 Ages the time, to learn how to evolve perfectly in oneself, between each other and with Nature. To create a harmonious human life as an individual and a collective as One, where this civilization lives in Harmony, Happiness and Health. Experience some small negativity, ego or disharmony and instantly change it into positivity, love and harmony.

As above, so below, to bring "Heaven down to Earth". To live a harmonious human life without Sin and without almost all of the ego perspective. To live a human life as God intended and created our human lives to be. So, Man can live Almost Always in Harmony, Happiness and Health without Sin and Ego. But Man stimulated their ego perspective of egoism, greed, pride, lust, fears, violence, etc.

The ego perspective has grown badly within Man over these almost complete 12 Ages. Man did not evolve their thoughts and ways as One. Man did not create a harmonious human life to live without Sin and without almost all of the Ego Perspective. Man lived by free will, the opposite. Man avoids, hides, embraces and justifies negativity, disharmony and ego perspective, instead of solving them.

If God's design does not intervene, Man by their ego perspective based on evil and selfish thoughts would destroy Earth and exterminate Mankind soon. And our Godly Souls would lose an important and wonderful platform as Earth to experience a human life. To sustain and protect Mankind and Earth, the Main Cycles of Life have been created by God. To start over again in Love and Harmony.

What did the Book of Revelation, Man's prophecies and predictions in many different religions and ideologies told similar in the big lines to Man? God shall create after an Apocalypse, by destruction, a new harmonious loving civilization, who lives a human life without Sin. Because, Man was Not able to create a loving civilization over 12 Ages, God designed this creation to happen by Judgment.

Perhaps you think, "But, if the rich, evil world leaders are protected deep underground in bunkers, and loving and kind humans unprotected above ground, how is it ever possible in the design of God during the Apocalypse to separate in perfection, all the Wicked and/or Egoistical persons from all the Righteous Loving Ones?" "Please, explain to us, how this is possible in our physical reality?"

The end times of a Main Cycle of Life of 12 Ages is designed by God in perfection. For in our case and our time, for two celestial systems to pass our solar system. See Earth as an energy field, which can be vibrating in a high energetic frequency or in a lower energetic frequency. High energetic frequency consists of Love, Harmony and Positivity, and low energetic frequency consists of Ego, Disharmony and Negativity. If Earth has a low frequency the two systems shall pass closer to Earth.

How closer the two systems pass Earth, how more devastating the reconstruction of Earth into a New Earth shall become. This time the destruction shall be the worst of all times, what never was necessary before, and never shall occur on Earth again. The systems shall recreate the unbalanced and disharmonious Earth, into a balanced and harmonious New Earth again, by erasing all the lower energetic frequencies from Earth. Wiping out the causes of unbalance and disharmony from Earth.

The two celestial systems cause Destruction and Death, which are low frequency energy fields. That is drawn to Man, who created low energetic frequencies in their thoughts and ways. All Man who have lower energetic frequencies in their human Souls by wickedness and/or ego perspective shall be killed. What happens in the Apocalypse to increase the energetic frequency of Nature on Earth, at a desired high energetic frequency of Love, Balance and Positivity, to restore Harmony on Earth.

Not One Man with a low energetic frequency in their human Soul of a human vessel shall survive on Earth. They shall all be erased from Earth by these two celestial systems and Nature of Earth. No matter, where they are located. According to God's Laws, restoration of Earth and Mankind has to happen to protect Earth and Mankind, against Man themselves. Man shall be Judged, if they have a high energetic frequency or a low energetic frequency in their human Soul of their human vessel.

Besides that, Nature shall erase all unnatural human vessels, who have taken the mark of the beast. Who have changed voluntary or not, their genes by jabs into sterilization and damaged their vessel. They and their rare possible offspring are not desired to be part of a new civilization in New Earth. They have marked themselves to leave Earth. Still, they can Save their human Souls in their true In-between life, by learning how to purify their human Souls, to be Ready at the end of their lives.

The energy fields and frequency I spoke of above, is Not from our seemingly physical dimension. But, this happens all at a higher foundation in the In-between dimension, where God's energy by God, Godly Souls, human Souls and others express our human life on Earth. In other words this Apocalypse and the results of the Apocalypse are unstoppable for Man in a physical dimension. The only Choice for Man left is to lift their human Souls of their human vessels unto a higher frequency.

Could world war 1, 2 and 3, starvation, chaos and the Apocalypse have all been prevented? Yes, it could, if people chose to listen and live the Seven Guidance's of God. To listen to a Messiah, who came at the end of every Age to Earth, to guide Man into a harmonious human life without Sin and almost all of Ego. The previous Messiah was called Jesus Christ, who Man has tortured, killed and could not finish his work. Still, Man Justified this terrible act, performed by Man's free will. In that time and in this time, Man still prefers prophet's lower works above Words and Works of a Messiah.

A dire prophecy as written in the Book of Revelation was given to Man, to learn from the letters to the churches, how to purify their human Souls as One. To prevent this dire prophecy to come to pass. To prevent a dire prophecy of wars, mark of the beast, starvation, chaos and Apocalypse was indeed possible. A future is never fixed in stone and is changeable, if people as One, change their Thoughts and Ways. Our future is created by all thoughts of all Souls connected to our dimension and Earth. In the lower works of unaware non-purified Prophets, messages of God were distorted. Still scriptures can have a lot of Good, Loving and Truthful Words, and also a lot of words which were interpreted falsely and made them often sadly into incomprehensible and false verses. What created many different religions, divisions and led to fights, wars and destruction of many people.

The Messiah of the Age of Aquarius

For all above described reasons God has sent it's "Son" back to Earth. God initiated my quickened enlightenment at July 29th 2013 during the morning star, the Star of David. Figuratively speaking to rise me from the suffering, dead and blind people living on Earth. Only if I have suffered many things in my life because of ignorance of the ego perspective of other people and myself, as other people do also in their lives, I was able to become an experienced Teacher of Man. Able to stand strong and to inform you, what is happening, what is going to unfold on Earth and how you can be protected during the ordeals like an Apocalypse. To Save your life into a New Earth. To show you what happens after death, and to present to you the real path to Heaven to Save your Human Souls.

Prophets failed to inform all of Man as One, that One Messiah shall come at the End of this Age to guide All People with ears on the World. To prepare people with their free will, to listen to simple Words to become Ready. Humanity failed to think and work as One, to find God's Truths of Life, in which science, religion and spirituality can walk hand in hand. A man called later Jesus Christ has informed in scriptures, that a new comforter, the spirit of Truth shall come unexpectedly in the End Times. Jesus and my vessel are different, but we share the same Holy Ghost, the Godly Soul of God. Just like Jesus Christ said, "I shall be advising the new comforter to explain my Words." "The spirit of Truth, the new comforter shall glorify God and me (Jesus), and testify about my Works."

Perhaps, many of you shall think; "I do not see a comforter in these previous Words", "Please do explain this". If you see a train coming towards children who are playing ignorantly on the tracks. Do you comfort them and say, "Everything is well, just keep loving each other"? Or do you warn them by telling them a train is coming and you can be hurt, or hurt other people in the train? First, you explain the situation what is happening in life, then you can explain what is unfolding next, so everyone has the right and truthful situation in their minds. To think about what to do, to be Safe.

There is a way to Save your human life during the Apocalypse on Earth, and the same way Saves your human Soul in your In-between life. A comforter explains, that life is Not only a human life, but life is much much more. Everyone has an immortal life as a Godly Soul, which is difficult to see if you are a Man surrounded by a seemingly physical world. Prophets never understood the High Works of God, otherwise they would have wrote everything the same in their lower Works, as One.

Let me explain a part of the High Works of God. God's High Works have already been finished in an extreme high and loving perfection. What means God does never have to intervene in a human life nor in a society. God created for our Godly Souls everything that is necessary, to experience through a temporary human Soul a human life experience. A human life experience in a physical human life on Earth, and when necessary a human life experience as human Souls in an In-between life. Being a human Soul between, being a Man on Earth and a Godly Soul in Heaven. God has also created Seven Guidances for Man in life, to guide Man by God, Messiah's, Angels, spiritual guides or your own Higher Selves, which is your original Godly Soul or called Holy Spirit. Guiding you with conscience, intuition and emotions. Even Judgment with the Apocalypse is already completely and perfectly designed into, how our universe sustains a loving and harmonious equilibrium. And when necessary it shall restore itself after 12 Ages in a perfect designed God's Plan. God does not work in mysterious ways, God works in different ways, which prophets were not able to understand.

After seven years Man is still unwilling to comprehend the construction of God, Souls and human life, which I shall explain more about in the next issue. For you to be able to see life completely, explained in the big lines. To see the big picture how all of life really works. In a human life and in an In-between life Man is always fighting themselves, only because of a lack of knowledge and wisdom. Just try to understand the knowledge and wisdom given to you in the below Revelation of the mysteries of God's Creation of Life. Just as it was promised in many scriptures by God to Man.

Revelation of the mysteries of God's Creation of Life

Original all of Man, including you, live as an immortal Godly Soul in Heaven. A Godly Soul cannot be compared with Man. A Man is a form of an animal of Nature on Earth. With a lot of Awareness and Abilities. Not to dominate Earth, but to have much more Responsibility than other animals, to create Harmony, Happiness and Health for Everyone and Nature on Earth. For our Godly Souls to experience Some, negativity and disharmony, and to become part of a seemingly physical world. Godly Souls reincarnate unto Earth. Reincarnation and Resurrection is created by God for all Souls.

A Godly Soul decides to reincarnate unto Earth into a Man or other vessel. A Godly Soul descends from Heaven into an In-between dimension. In Heaven all Godly Souls live by unconditional love of God in Harmony, Happiness and Health all the time. What means the energetic frequency is very High in the dimension of Heaven. A Godly Soul can therefore Never create negative thoughts, and have no negative emotions or negative feelings in Heaven. What is the most important Reason, why Man and Souls desire to return back to Heaven. Negative thoughts have a low energetic frequency and do Not exist in God, Godly Souls or even in your Higher Self Awareness of a Godly Soul. God and Godly Souls are very intelligent, unconditional loving and pure harmonious wonderful beings. From origin you are this wonderful loving being as Godly Soul, having temporary your human life.

If a Godlike, Godly Soul arrives for reincarnation in the In-between dimension, between Earth and Heaven. Then this Godly Soul, because of their harmonious thoughts, unconditional Love and pure Goodness in their thoughts, memories and personality, can also Not in this In-between dimension create negative thoughts, and have negative emotions or negative feelings. A Godly Soul cannot reincarnate directly unto a human vessel, because then a Man can't create negative thoughts, which results in negative emotions and negative feelings. Godly Souls like to experience this a Little Bit, to learn to understand the fullness of living always in Happiness, Health and Harmony in Heaven.

What did God create to make this possible for a Godly Soul to reincarnate into a human vessel?

The In-between dimension exist at a lower energetic frequency than Heaven. In this dimension high and lower frequencies can exist in this energy field as thoughts, memories and personality of Souls. The Godly Soul “split” figuratively a part of it's consciousness, to create a human Soul, without any thoughts, memories or personality of the Godly Soul. And gave this human Soul Self Awareness and is able to observe human life. The Godly Soul connects this human Soul as an energy field unto the energy field of a human vessel in our seemingly physical dimension. What is called reincarnation.

During a human life, born as a baby and growing up, Man creates all kinds of thoughts, memories and personality, which fills this human Soul. A human Soul as Man can choose to formulate positive, loving and harmonious thoughts which vibrate at a High frequency, by loving, kind, equal, peaceful, sharing, caring, supportive, good, positive and other harmonious thoughts. Or Man can also choose to formulate negative, egoistical, greedy, prideful, lustful, dishonest, violent, or other disharmonious thoughts which vibrates at a Low frequency. The human Soul can have positive and negative thoughts in their human Soul, and a Godly Soul has only positive and loving thoughts.

An average Man in a human life, has created in his or her human Soul, all kinds of thoughts, memories and personality. Which vibrate all separately in high or low energetic frequencies in the energy field of a human Soul. This human being has an average medium frequency in their human Soul, that does not match the high energetic frequency of their Godly Soul. Is this human Soul able to merge into the Godly Soul to return to Heaven, if the human Soul has still one or more negative, egoistical or disharmonious thought in their thoughts, memories or personality? No, it cannot. Therefore a Human Soul has to purify, it's thoughts, memories and personality into perfection, into loving and harmonious thoughts for Everyone and Nature. To become itself as a Godly Soul again.

Many people shall think, “I don't like this explanation”, because they know, they did not reach this state of mind in their human Souls, transcending unto True Love and Pure Harmony for Everyone and Nature. Therefore almost all people are Not Ready to die, because they did not purify their human Souls into perfection. Man living in our times, would by ego claim, “this is impossible in our world”. A human life is created for loving Souls, and not for our wild self-created Ego perspectives.

In God's Plan this was perfectly and lovingly for all human Souls and other Souls foreseen. If Man does Not fulfil their purpose in their human life, to purify their human Souls to be Ready. Then somehow the human Souls have to be taught and guided to purify themselves after death. After your human vessel dies normally by age designed by God, Or by a premature death created by Free Will and Choices of Man and Man's civilization, a human Soul shall normally awaken very slowly after circa 3 days. You shall experience in all happiness and love, that you are still Alive and self Aware in the In-between dimension with the last thoughts, memories and personality you had in the last days before you died. All human Souls shall love this In-between dimension, created by God to let your human Souls acclimatize to this new dimension. Which looks a bit like Heaven, but is not. Many people in NDE's have experienced this In-between dimension and thought they saw Heaven. A human Soul is never able to observe Heaven, and a human Soul can never leave the In-between.

As a passed over human Soul, you shall Observe and have the most beautiful experiences and feel intense love and warmth surrounding you in this In-between dimension. At this moment a human Soul cannot use their Low energetic frequency of thoughts, memories and senses in this Higher energetic frequency of the In-between dimension. Your human Soul has learned only to think, sense and remember a passed human life at a Low energetic frequency on Earth. Now, slowly the human Soul has to learn, how to think, sense and remember at a high energetic frequency. What is New for the human Soul, still the human Soul can Observe Aware, what is happening in this In-between life.

What is for everyone the same, whether you believe in these Words or not. Because God loves all human Souls unconditionally, everyone good and bad shall experience the resurrection on this way. To die as Man and to resurrect as human Soul. To awaken and live again as a human Soul in such a way, becomes a very tranquil transition, without panic, worries or fears. Loving, kind and perfect created by God, to protect and guide human Souls to become Aware, in this In-between dimension.

As soon loved ones on Earth start to think about you, they pull your passed over human Soul to Earth. Human Souls are always in the In-between dimension, but are able to see and listen into the seemingly physical human dimension. To hear and watch loved ones thinking, speaking and living in a human reality on Earth. While you are visiting a relative or friend and start slowly to remember who you were, perhaps you remember other people or a place. And by focusing on them or that place, you shall be instantly there. Very slowly you shall remember, thought by thought, who you were. You shall learn to use thoughts, senses and to remember at a higher energetic frequency. In all tranquillity and very slow this transition happens, to prevent you to use your thoughts, senses and remembrance right away, what could lead to panic, worries and fears. Perfectly created by God to comfort your human Souls after death, and to get used to this magnificent In-between dimension.

To recap; after death of a vessel, we have to transform our way of thinking, remembering and using our senses from low energetic frequencies (We used as Man in a human life), into high energetic frequencies (Which we can use as human Souls in the In-between dimension). What means your original thoughts, memories and personality have still High and Low energetic frequency thoughts, memories and personality. If you were a good and wise person, you shall be a good and wise human Soul, if you were a bad and egoistical person, you'll become a bad and egoistical human Soul again. You have only learned to use your thoughts, can remember and sense at a high energetic frequency. At this time it shall feel for you, as if you are the same person, only you have exchanged a physical body for an esoteric body, that is able to fly anywhere in the In-between dimension and visit Earth.

All blockages of the physical body and brain are dissolved, people who had problems in their brain, body or with their senses shall all have been disappeared. You are completely Healthy again. Only the negative thoughts of the ego perspective in your Soul shall result in negative emotions and upset, bad and sad feelings. Or if you have positive and loving thoughts, those shall always create positive emotions, happy and good feelings. Most passed over Souls have negative (disharmonious) and positive (harmonious) thoughts in a human Soul, as they had normally in their past human life.

If Man stops using their senses and thoughts, in meditation, trance or deep prayer, they are able to Observe with their human Soul the In-between dimension, or can communicate with other Souls and even our past over human Souls (=died people). Observing a human life we do always directly with our human Soul at a high energetic frequency. What explains out of body experiences, near death experiences, prophecies, visions, dreams, remote viewing, experiencing Souls as ghosts and much more. You see, everything can be explained if you know God's True Will and High Works.

If Earth is restored into a New Earth and all people you knew died also in the Apocalypse, and there are not any recognizable places on Earth, who and which can help you to trigger your memory. So then, you need much more time than 3 days, to remember who you were. To help you to replace the low energetic frequency of thinking, sensing and remembering into a High energetic frequency, which you can use as a human Soul in the In-between dimension. What shall be the cause, that many human Souls shall be Lost for a much longer time. What just means, you need much more time of decades or centuries to become fully self aware in your human Soul. This is not a bad thing, because you shall not actively be aware of this, and time seems to move very fast for you. But, this way of resurrecting is undesired for you. If you know all these kind of happenings, you are able to Save your human Soul much faster by studying, sealing (=memorizing) and living my Words.

As a passed over human Soul, you are still guided by your Godly Soul, as Higher Self Awareness to ascend your human Soul, to find your path back to merge into your own Godly Soul. The same kind of conscience (=thoughts as guidance of your Godly Soul), and intuition (=intention as guidance of your Godly Soul) are still available to you. To know and guide you on your true path to Heaven. If you listen to your conscience and intuition, then you know what to do in your true in-between life, and shall proceed as explained in the Book of life. Everything you learn Now, you shall slowly, but surely remember also in your real In-between life. What helps you to find your path to Heaven. If you were reluctant to listen to intuition and conscience in a human life, you shall do the same in an In-between life. Perhaps these Words can help you to change your thoughts and ways. To prepare yourself correctly for what is unfolding on Earth and what shall happen in your true In-between life.

Did you hear about ghosts, who lived a human life one hundred, two or three hundreds of years ago, still living as passed over Souls, roaming Earth? They are lost human Souls and need a lot of time to let go of Earth. After a passed over human Soul chooses by free will in the In-between dimension, to let go of loved ones, possessions and Earth, then they shall be higher resurrected. To become free of ego that wants them to be connected to Earth. If human Souls follow the love and light, softly pulling them, then they shall ascend higher in their In-between life. If passed over human Souls have still disharmonious and ego thoughts in their human Soul, then they shall enter the Repentance phase by Works in this In-between. To purify their human Souls, by working at all their mistakes.

Lost human Souls, all others and even you, are able to hear my voice and thoughts also. They and you, are able to draw these Words into your thoughts from the collective mind of Man. Given by their/your own Godly Soul through conscience and intuition. Enabling lost human Souls and others to learn how to purify and resurrect perfectly in (an in-between) life, by listening to the Words of a Messiah. That is also what the "Resurrection of dead people" (=passed over Souls), or "a Messiah shall pour out his Spirit over the population" in scriptures means. Let me emphasize this, the true, for most people unknown, In-between life, feels as real as your human life feels to you at this time.

The Repentance phase by Works.

In a human life, we Observe our human life at a high energetic frequency. Our human Soul learns as a Man to think, remember and sense a human life reality at a low energetic frequency. After we've awakened in the In-between as a passed over human Soul, we learned to think, remember and sense at a high energetic frequency. The only thing that remains is to merge our human Soul into our own always loving and harmonious Godly Soul again. To make this possible, we have to adjust and correct by purification our human Soul, to become as loving, good and harmonious as our Godly Soul. Only a purified human Soul is able to merge into their Godly Soul. What means, as a passed over human Soul, we have to erase all negative, disharmonious thoughts and thoughts from our ego perspective from our human Soul. For this process, God created the Repentance phase by Works.

Do you understand the point, if you had purified your human Soul into perfect enlightenment in your human life, you would not have needed to do again, all kinds of mistakes as Lessons of Life in the Repentance phase by Works in an In-between life. To return into your Godly Soul and to be able to return to Heaven. What can only happen, if you have purified your human Soul into perfection, of thoughts, memories and personality, ascended in Love and Harmony for Everyone and Nature.

Prophets in their lower works have also told Man, sadly, in incomprehensible and some distorted verses, that Man has to purify their human Souls. By changing perfectly their thoughts and ways into God's True Will and Ways. Only Man never lived these words. Even prophets did not know exactly what it all meant, and distorted God's True Will and Ways. Normally, this purification of a human Soul shall have to be fulfilled at the end of your complete human life, in which you die only by age. To experience some negativity and disharmony at the beginning of your life and to have evolved during your human life, by purifying your human Soul and to be Ready, at the end of a human life. With a perfect purified human Soul, able to return to Heaven after only 3 unto 7 days.

The ego perspective within Man is the real Creator of negative and disharmonious thoughts. The negative thoughts leads to negative ways and creates negativities and disharmonies as Sin on Earth. You can only erase Sin from your thoughts, memories or personality from your human Soul, if you erase the ego perspective from your thoughts. The Ego perspective is based on egoism, greed, lust, pride and violence. In other words to embrace only and always positive, harmonious and loving thoughts which are good and loving for Everyone and Nature, no matter what is happening in your environment. To believe in God, Jesus Christ or me, doesn't help you, you have to do the Work. Working at your thoughts, memories and personality to become a Holy Saint on Earth. Otherwise you have to fulfil this purpose of a human life in your True and Realistic In-between life. Only by the Words of a Messiah you can learn to be Saved in this human life, and in your In-between life.

To learn to erase all disharmonious and unbalanced energetic thoughts, memories and personality from our human Soul. To purify our human Soul, or in other words to become enlightened. Why do we desire to do this? To be able to merge our purified human Soul into our Godly Soul. Only then, we are able to return as a loving Godly Soul back to Heaven. As a passed over human Soul in this true Repentance phase by Works, we shall experience from the youngest age upwards to the oldest age, all the mistakes we have made in life. Everything we did wrong and unloving, we have to do over again. From the youngest age up, we erase every mistake from our human life, step by step.

Only when you've completed to purify your human Soul in the Repentance phase by Works, you shall have arrived at your last oldest age, you were in your human life, when you made your last mistake. If you solved this also, then you shall experience a "second death". Where your purified loving Soul shall merge into your loving Godly Soul and become One. You shall become your Godly Soul again, added with the experiences and memories of this past human life. Because, your Soul's personality can flow perfectly into your Godly Soul's personality, to become yourself again.

In this Repentance phase by Works in the In-between dimension as our Human Soul, we shall experience ourselves all the pains and sorrows, we have caused in our past human life to All other people, all their relatives, animals and Nature. Not to punish you, but to let you experience what you did to other people, animals or Nature in your past human life. Just as it is written in scriptures, if you killed someone with a sword in a human life, you shall experience to be killed in the same way. If you took someone in captivity, you shall be taken in captivity yourself in this In-between.

This happens from the youngest age up through your past human life. Step by step. Every mistake tiny or big you made, has to be dissolved, before you are able to ascend to the next mistake. To be able, slowly to correct your human Soul's, thoughts, memories and personality into pure Harmony.

Then you shall be placed by your Godly Soul into a next situation, a reality which feels to you as real as your human life feels to you now. To make new choices again with free will, to see if you've learned from the negative experiences and can handle this aspect in life perfectly. You have only your thoughts of that age, conscience and intuition to make better loving choices in a same kind of situation. If you make the same wrong choices by your ego perspective again, you shall experience all the same pains and sorrows belonging to this aspect of life yourself again. This repeats again and again until you choose by free will loving, equal and harmonious thoughts for Everyone and Nature.

Then you move up in age, until you made the next mistake. First, you shall experience yourself this mistake, as pains and sorrows you caused to all others, in a reality that feels and looks as real as life. Then you shall have the opportunity in a new reality to make new and better choices. This goes on and on, until you have purified your complete human Soul into Love and Harmony for Everyone and Nature. To have become a worthy, loving and a Godly human Soul, able to merge into your Godly Soul. After you have purified your human Soul completely, then you shall experience a so called "second death" in this Repentance phase by Works. To merge finally your purified human Soul into your Godly Soul and you become your Godly Soul again, to be able to return to Heaven.

People who have purified their human Soul in a human life can after circa 3 - 7 days, say goodbyes to loved ones on Earth, if they like visit some places on Earth or other planets, and then merge into their loving Godly Soul and return to Heaven. As resurrection after a human vessel's death, was meant to be! But, many human Souls shall need decades or many centuries, wasting time and lots of suffering to purify their human Souls. Do you see the difference? That is why human Souls needs True Salvation. If you have created a hell for people, animals and/or Nature on Earth, then you shall experience this hell for yourself in the Repentance phase by Works. If you lied aware to people or were dishonest, this you shall also experience yourself, until you learn to be honest, open and loving to Everyone. Everyone has free will in life to choose for themselves. Choices are causes, and all causes have consequences in this human life, or even in your real In-between life. Choose well.

How more Sins and how bigger your ego perspective is, how more troubles you shall have to let go of possessions, false beliefs, behaviours, loved ones and Earth. You shall need many experiences to purify your human Soul in your Repentance phase by Works. Perhaps you choose to stay much longer in the In-between dimension. What can result also in many decades, centuries or for some evil people even into some millennia, before they choose by free will to purify their human Souls. To merge into their Godly Souls and to ascend back to Heaven again. If you were reluctant to purify your human Soul on Earth, then it shall be similar in the In-between. Or, change your thoughts!

In the end all vessel's Souls shall merge back into their Godly Souls and return to Heaven. What makes for every Godly Soul in Heaven, a human life experience into a complete success. That is how perfect, kind and loving, God created Reincarnation and Resurrection. About living in Heaven we shall elaborate more about in below issue. To see, how it is to live as a Godly Soul in Heaven.

Living as a Godly Soul in Heaven

If you are reincarnated, your Godly Soul is your Higher Self Awareness, and your human Soul is Self Aware and is experiencing temporary to be a Man. Your Godly Soul is multitasking, one part of you is still the Godly Soul, and another part of your Godly Soul becomes your human Soul. Both Souls have a separate Self Awareness, but belong to the same Godly Soul's Awareness. What happens after your purified human Soul merges into your Godly Soul? Because you became a Holy Godly personality in your human Soul, this personality can merge perfectly into the personality of your Godly Soul. What means they become One, and you are Self Aware as this Godly Soul again. You shall remember your complete Godly Soul's life and know exactly how to live in Heaven. Then you shall return to your own World in Heaven, you have created already for yourself and others.

As a Godly Soul you are able to think, remember and to sense “similar” as you did in a human life. Only sensing in Heaven happens on much more ways, than what Man experiences in a human life. To give you some examples you can imagine, you can see, hear, smell, taste and feel colours, you can see, hear, smell, taste and feel sounds. And there are many more senses Man is not aware of, but if you are your Godly Soul again, you know all your senses you can use in Heaven. Even your own thoughts move much much quicker as a human thought, it feels almost instantly. As an example you can look back at your complete human life in detail, in some Earth-minutes in Heaven. Or look at many other lives you had on Earth, or even on other planets within other civilizations, or Nature.

In Heaven matter does not exist. Perhaps shocking, but matter does not exist either on Earth. But, we all know matter feels very realistic for our senses in a human reality. What means, Godly Souls and human Souls are able by thoughts to change the frequency of God's energy in Heaven, the In-between dimension and in our seemingly physical dimension, into form, what we call realities. All realities Godly Souls create in Heaven, sense for Godly Souls as real, as our human life feels real to Man. Man's low energetic frequency of senses resonate with the low energetic frequency of our seemingly physical reality, to give human Souls an experience to live as Man in a human reality. In Heaven Godly Souls sense at a high energetic frequency the high energetic frequency realities they create in Heaven. Therefore a Heaven Reality feels just as real, as a human Reality feels real for us.

This means in simple words, the environment of Heaven consist of everything a Godly Soul desires to create. Godly Souls are perfect creators of realities. If you like to see a loved one, who arrived as a Godly Soul in Heaven also, as a human being, and if you desire to show yourself as a human being, you can. This looks and feels as real as your past human life. You are able to hug, kiss, touch hands, face, hair of loved ones, and it feels as real as it did in a human life. You can let the moon shine, live in your old house, create an ocean and walk at the beach. Everything you desire can be created in Heaven. Realize, if you die, you lose nothing. Neither a human reality nor Loved Ones.

As a human Soul you have experienced Earth, and we have Observed at a high energetic frequency with our human Soul everything that happened on Earth. As a Godly Soul you are able to recreate anything you have observed in a human life or in previous lives in detail. If you glanced at a tree or a mountain, it is in your Godly memory stored in detail and you can recreate this tree or mountain into perfection. Just by thinking of it. In this way, we have created our own Worlds in Heaven.

And yes, you shall see all loved ones and loved known people, you perhaps hated on Earth again in Heaven. Because, of your purification of your human Soul and other's human Souls, you shall love all people you have met on Earth equally much. To communicate with each other on the same way as you did in a human life. To talk about the experiences you had together. There're neither negative thoughts, negative emotions nor negative feelings in Heaven. As a Godly Soul, we have evolved above all those lower energetic frequencies. Unconditional love is absolute in Heaven, so all Godly Souls help each other to create desired wishes, and live always in True Happiness and Love, as One.

You are able to recreate your house you lived in, show yourself in a human body in every age you prefer, and even embrace loved ones on the same way as you did on Earth. Everything can be re-created and feels as real as your human life feels to you. What means you can create an ocean, a jungle, a desert, one, two or three suns, or clouds, see planets or look up to stars. You can make it rain or snow, what ever you desire to experience, you can create instantly by your thoughts. Godly Souls are Perfect Creators in an Extreme High Perfection, and it feels always as a reality for you.

As a Godly Soul in Heaven you know, that being a Man was One of many experiences you had in your Godly Soul's life. Your World in Heaven is an expression of energy of the best of all your personal experiences. Not only living as Man on Earth, but living as many different kind of entities in our physical dimension. Living in Heaven is not about the form of a Man, life is all about Godly Souls living within God. Heaven is the most wonderful place to be. But, if we as Godly Souls live always in this place of love, happiness and harmony and can create instantly anything we desire to experience, sometimes we desire to become part of a physical human life on Earth for example. To experience to work with hands, to struggle and to evolve by experiencing disharmony a little bit, to understand the fullness of living always in unconditional love, Happiness, Harmony and Health.

Time and Distance do exist in Heaven, otherwise everything would be static, stand still and life can't exist. If you give a loved one a hug in Heaven, then single present moments have to create this event, step by step. Even one thought leading into another thought is always based on a present moment unfolding into a next present moment. On Earth you have past, present and future present moments. If one present moment has unfold and expressed energy into a physical reality, it becomes a past present moment, at the same time then a next sequential pre-created energetic future present moment shall unfold as a present moment, etc. Only in our seemingly physical dimension, future present moments are predetermined by creation of thoughts of Souls. Souls who are connected to our dimension and Earth. Our future is pre-created by thoughts and can be influenced and recreated by thoughts of Souls connected to our dimension. In Heaven, future present moments are Not pre-created in an energetic sequence, but created in the present, instantly by Godly Souls. If a present moment becomes a past, the past present moment doesn't exist any more, and is stored in memory.

Time in Heaven is defined by the velocity God is experiencing life, that equals time of a human Soul as Man, experiencing life on Earth. Godly Souls recreate God's energy into form, in all kind of realities, in a sequence of present moments. Which even the Godly Souls are not aware of, during creating thoughts into realities in Heaven. Time is not created by cycles as on Earth. But, by present moments which unfold for the experience of Godly Souls in Heaven in circa 10 to the power of -45 second, the same as in a human reality. If you give a loved one a hug in Heaven, it happens on the same speed, as we experience this also in a human life. To go one step deeper in God's High Works.

See present moments unfolding for human Souls as Man, both sitting in a kind of "train", moving through life at a very high speed. Man sees the present moments unfolding one after another in a tiny second on the train. To create static expressions of energy in one present moment, into dynamic experiences for human Souls over more unfolding present moments. Time and distance are for Man an illusion, still creating a perfect human reality for human Souls. What proves physical time travel is impossible. But, still a human Soul can observe and experience the created dynamic expression of energy, in time and distance. A human reality looks by observation of the human Soul on the "train" to go slow, but in reality it is unfolding very fast. God created a human reality on a "train" at a high speed, to give Godly Souls the possibility to experience in one Earth-day time in Heaven, about circa 1000 years in this human reality and in the In-between dimension. God has recently in the last 45 years slowly increased the speed of the "train". What means for human Soul's experiences, that life feels by observing a past to have happened much quicker. Still, the cycles on Earth remain the same. When many people shall die during the dire ordeals, the suffering in experiences of human Souls in a human life and in the In-between life, shall feel to be much shorter, to protect all Souls.

OLDEST AGE, THE MOST PROBABLE FUTURE AND PROPHECY

Let's calculate a bit. God has created a "human life reality" and an "In-between reality" to unfold very fast, for specific reasons. So, Man can experience a maximum of 144 years living on Earth, before dying of old age. Perhaps needs 3-7 days unto thousands of years in their In-between life before a human Soul has learned by free will to purify their human Souls. An average egoistical Man of this time, still a person without Sins, lives for example 70 years in a human life and needs about 120 years in the In-between dimension, before he has learned to let go of Earth and to purify their human Soul into a Holy Saint. What means this Godly Soul was just circa 4.56 Earth-hours away from Heaven. If someone lives 100 years and needs 600 years in the In-between life to purify it's human Soul, it means this person was just circa 16.8 hours away from Heaven. A purified person who lived 100 years and returned after 7 days, shall arrive 2.4 hours later as A Godly Soul again in Heaven. The difference is not the arrival time in Heaven, but the experience of 70 or 100 years of human life, without, a little bit or complete happiness and enjoying life. And 0, 120 or 600 years of suffering pains and sorrows in the Repentance phase by Works, to become a Holy Saint again.

Man needs Salvation, to learn by the Words of a Messiah, how to purify their human Souls in this human life and/or in their real In-between life by Works, to prevent these for example, 120 or 600 years of suffering pains and sorrows in their true, for most unknown In-between life. Which feels as real as your human life feels to you. Only a person, who purified their human Soul and is Ready at the end of their human life and dies, only they, do not have to suffer the pains and sorrows in their In-between life as human Soul, and they can almost directly merge into their loving Godly Soul and return to Heaven. This all, is for Everyone the Same, whether you believe in these Words or not.

If you realize the reality of time in Heaven and time having a human life experience, it creates a different and much higher perspective. As soon you are back in Heaven, you shall see all your loved ones in the same day, or for more evil persons after some days, back in Heaven. What creates clarity in the point; during experiencing human life or an In-between life, you should desire to purify your human Soul, to be able to return after death back to Heaven. Instead of wasting time with suffering in the In-between dimension, to help you to correct and purify your human Soul. How longer you refuse to become purified in your human Soul, how longer you struggle against yourself, and need more time. To explain all of this to you, means you learn, how you're able to Save your human Soul. Perfect, loving and kind created by God. If we live by God's True Ways, then we'll become Ready.

What kind of negativity, pains and sorrows you may choose to sow in a human life, you shall reap exactly the same in your existing In-between life. How more Ego and Wickedness you use in a human life, how more time of pains and suffering you need in your In-between life (=afterlife). By some called karma, by some judgment, and by some what goes around comes around. A human life exist to learn from all Lessons of Life, to evolve above all negativity and disharmony created by yourself, by others or seemingly by Nature. To choose only loving and harmonious thoughts for all. If you are not able to do so in your human life, then you have to fulfil this in your In-between life.

If we could see as Godly Souls from Heaven to Earth, than we would see human life very rapidly moving, just like those movie clips which are played very fast. One Earth day in Heaven, is about 1000 years, on Earth and in the In-between dimension for human Souls. Why do Godly Souls in Heaven do Not look at Earth? They do not "miss" friends, because they're with them in 1 or 2 days. Some of the Godly Souls are very experienced in human life and decided to become Angels. They have descended into the In-between dimension, to guide all of Man in life, on all kind of subjects and questions they might have. Other Godly Souls like to support a known Godly Soul who is going to reincarnate, or knew them from a previous human life they shared together. They descended into the In-between dimension and are personal Spiritual Guides. Every Man has at least two spiritual guides, to guide with thoughts and intentions, which are revealed in conscience, intuition and signs.

These thoughts as your conscience, intentions as intuition, or signs by numbers or events in life, from Angels, Spiritual guides and/or even your own Godly Soul, as Higher Self Awareness, shall never go beyond your choice. To respect your free will to evolve in your path in life. By choice, you can pull these thoughts and feelings into your conscious Awareness of human Soul living as Man. If you make your inside thoughts (=conscience) and ways (=intuition) of your guiding Godly Souls into your outside Man's thoughts and ways, then you have purified your human Soul and are Ready.

In the Most Probable Future of our seemingly physical dimension, called by some Akashic records, are stored all past present moments, present moments and most probable future present moments. Which are stored as an energetic blue print, what has, what is, and what is most probably going to unfold on Earth. For enlightened Souls on Earth, a past present moment is gone and belongs to our memory, and as soon a present moment unfolds, it belongs to the past. So, only the most probable future present moments are important, to see what is happening in a Man's future, therefore we call this energetic blueprint a Most Probable Future. A future is never fixed in stone and is alterable by thoughts of Souls connected to this dimension and subject. The Most Probable Future is the place where prophets or psychics can draw information by observing parts of this most probable future.

The Seven guidances are, God, Messiahs, Angels, Spiritual Guides, your Higher Self Awareness as Godly Soul, Prophets and psychics, and known systems for example, numerology and astrology. To help Man to be guided on the right, loving and harmonious path in life, as God created life to be. Things are never bad in human life, only what Man chooses to do with things can make them bad.

Let's talk about God's Creation for prophets and psychics. They are able to draw information by prayer, trance or meditation to stop conscious thoughts and their senses, to Observe the In-between dimension with their human Souls. Here they are able to look into the Most Probable Future, if they have a purified human Soul in perfection. In reality most prophets and psychics can only see a small part of a most probable future. Other parts are given in visions and dreams of prophets and psychics to experience, which can include Messages of God, Angels, Spiritual guides and passed over Souls.

When I tell you a dire future which shall happen, seen in the Most probable Future, or had a dream or vision and say, "you shall stumble over a specific rock in your garden soon, and hurt your ankle for months." An unwise Man shall say, if you are a prophet or psychic, then it has to come to pass and waits for it to happen. A wise Man shall say, I shall immediately and carefully remove the rock, and then I know your prophecy cannot come to pass. And he is right. A future is never fixed in stone. Thoughts influences and recreates the Most Probable Future. If Man chooses by free will to act on a dire prophecy, to change their thoughts and ways, the future shall be changed also. What do you have to do when someone tells you a good prophecy you like? In this situation you should not change your thoughts and ways, to experience this happy outcome. This is the way, how our Most Probable Future can be seen, or prophecy or psychic predictions can help Man and can be used to see what we are creating in our future. What guides us, to prefer Good choices above Bad choices.

Prophets, Psychics and all of Man create their dreams and visions in their human Soul and observe them with their human Soul in the In-between dimension. Which can include messages of God, Angels, Spiritual guides or other Souls, or observing parts of the Most Probable Future. They can interpret them truly, falsely or bits of both. How is this possible? Prophets, Psychics and others can create, influence and distort visions or dreams by their own subconscious thoughts, such as fantasy, beliefs, ego, pride, lust, violence, fears, Man's used thoughts and ways, or other impressions of life. What resulted in different kind of prophets and psychics, many false prophets and many different religions, ideologies and opinions. From listening to God's True Will and High Works, you can see that none of the ancient prophets or psychics described the Truths of Life completely. They distorted unaware their visions and dreams by unaware preferred subconscious thoughts. How more a human Soul is Purified into Perfection, how better Messages of beyond and Future events can be observed.

What can you do in your human life to start to purify your human Soul?

One difference which Man has to realize is, that individuality is a personal experience, but defines Not who you are. Man experiences to be an individual AND at the same time is literally part of a collective society living within Nature, as One. All Godly Souls are experiencing through a human Soul temporary to be a Man on Earth, what should have United all of Man in Harmony, a long time ago. Do you desire to live in a hell on Earth, by living only for yourself or a group of people? Or do you desire to create as One collective, a Heaven on Earth together? Life can be so much more, if Man takes Responsibility for themselves, everyone and Nature. By teaching each other God's True Ways, that leads Man into Happiness, Harmony and Health for Everyone and Nature. In which Man still can have all their own personal individual experiences, still united by unconditional love for all.

The human Soul of Man is part of their own loving Godly Soul, and your Godly Soul is created by another Godly Soul, and this one is created by another Godly Soul, until the first Godly Souls who were created by God. Angels, Spiritual Guides and your Higher Self Awareness's are all Godly Souls and are living as One collective, within an unconditional loving God. God is Self Aware as a personal experience, and at the Same time God is Everyone and Everything. You live inside God your personal experiences, as part of God. Also Man has to learn to work and think as a collective as One, to experience only a little bit of negativity and disharmony and to learn to evolve together as One on Earth. Man should realize Man is literally a part of their own Godlike, Godly Soul. Only Man never stepped into their power, to create a magnificent life for Everyone and Nature on Earth.

How can you purify your human Soul from this moment on in your human life? By choosing all the time thoughts, leading unto ways, which are good, equal, peaceful and loving for you, AND at the same time good, peaceful, equal and loving for all other people in the World, AND at the same time good and loving for Nature. Desire to become and feel yourself like a Loving and Holy (=Godly) Saint and try to think and act in the same way, no matter what is happening in your environment. As we have said, real dying is a pleasant passing over, so you do never have to be afraid for anything in your human life. A human life is just One experience of many. It is just a Good and Loving choice, which you can decide by free will to make over and over again. Then you lift your human Soul unto a high energetic frequency. By formulating only positive, unconditional loving, equal, honest, kind, peaceful, sharing, caring, supportive and harmonious thoughts. To evolve yourself in a human life.

Man is holding so tight to a human life, because they think they have only One human life. Then they want to do anything to save their human life, to gather all kinds of possessions or have as much pleasure and fun in this human life as they can, at costs of other people and Nature. And they cannot see the troubles, they are creating for themselves in afterlife. Which shall become very clear in their In-between life, by experiencing all mistakes, pains and sorrows, they have created in this human life for themselves, others and Nature. Everything you do bad or unloving in a human life, comes in the end back to yourself in your Repentance phase by Works, in your In-between life. Because as a Man or as a human Soul, we have to learn in a human life or in the In-between, to purify our human Souls into perfection. To be able after death to merge into our Godly Soul, and to return to Heaven.

Over time, I heard many people say, "after death living as electrons or energy is a sad way of life". Not realizing, everyone and everything is energy, even our human reality is completely made of energy by Souls and God. They say, "just live this One human life and have fun." They prefer a human life, because it feels real to them. Not realizing dire consequences they create for themselves in their In-between life. They don't see the homeless, starvation, sickness's, crimes, destructions and wars in the world, or see people who live constantly by fears, worries, shame, sadness, mourning, anger, hate, violence, depressions, disappointments, irritations, frustrations, jealousy, loneliness and many others. Which of course, are all unnecessary, if you understand how life was meant to be. If you desire to erase all negative emotions, upset, bad and sad feelings in life, come to our website.

A person, who lives by God's True Ways, has learned to evolve above all thoughts and ways of the ego perspective, and transformed all negative into positive thoughts, and experiences only positive emotions, good, loving and happy feelings, all the time. What is called Repentance by Works. Where you can experience True Happiness and Pure Harmony inside yourself, no matter what is going on in your environment. Only if you never experience negative emotions, upset, bad and sad feelings any more, you have become enlightened, and have purified your own human Soul. All negative emotions and upset, bad or sad feelings tells you, you have still negative and ego thoughts in the energy field of your human Soul. To be wise means to harmonize a human Soul in perfection.

One large problem for Man in past and present is that this information has trouble to pass Man's ego and pride. Man is unwilling to appreciate Words of Love, Harmony and Truth within a simple Man. Man is holding on to Man's thoughts and ways described for 2/3 in lower works of prophets. Man does not live the Words of a Christ, a Messiah, but live Prophet's words, and therefore are unaware rejecting God. Is it not written, to seal up prophecy, when the Messiah has arrived? Most are simply to afraid to consider Words. Personally, I do not write this letter for myself, but for all of Man, to teach how Man is able to Save themselves in this human life on Earth into a New Earth, and to Save lots of time and suffering in their In-between life. Do you see now, that it was wrong to kill Jesus Christ in the past? People prevented Christ to fulfil his tasks, to help all people to evolve in life. To prevent the Apocalypse, much suffering, violence and wars on Earth. He was killed by people, who preferred prophet's lower works of Religions, above Works of a Messiah, a Christ. The same is happening in this cycle again. The question is, are you a follower of Christ, a Messiah, or prophets?

What people do not realize, is that at the end of every Age a New Christ, a Messiah is born. And yes, Pharisees have shifted data of time, places and deceived Man, also in scriptures. The original Words of Jesus Christ are the same, as in these Words you hear now. Because all the Messiah's have the same tasks, only expressed in ancient or more modern words depending on the time Man lives.

In this letter, I speak always about guiding ALL people into Happiness, Harmony and Health. What means God loves to guide unconditionally all people in life, good or bad, spiritual or not, religious or not and scientific or not. Because everyone is a human Soul, part of their Godly Soul and part of God. You could say, we all are children of God, which is completely true. That some children do not like to listen to their parent, think they know better and deny parent's guidance, most of us have also experienced this in life. Still, most of us know, that it is Good to Love our children anyway. This parental love for our children is called unconditional love. Without any conditions, we still love our children equally much. Because we understand that Man or children choose thoughts, as choices. Some choices we like and are Good choices, and some we do not appreciate which are Bad choices. We hope that our children and Man learns from the experiences of upset, bad and sad feelings, they get in life by formulating negative thoughts, and see their creations of negativity and disharmony in life, which upsets and feels bad and sad also. To change their thoughts and ways and start to see, that Good choices by True Love, leads to Harmony, Happiness and Health for everyone and Nature.

If you say, "Man did listen to God, the Messiah and prophets for thousands of years, it is all written in our scriptures". Then I ask you this simple question? Did religions dissolve problems on Earth? Does everyone live in equality in pure Harmony, True Happiness and Health almost all the time? Has violence, crimes, accidents, destruction of Earth, perversions, killings, terminal sickness's, wars, starvation, pollution of Earth (lands, air and oceans), racism, inequality of living standards of Man or the Apocalypse for example, been dissolved and prevented, or only increased? No, they were sadly, not dissolved, and only increased. Because Man didn't listen to the Messiah, who informed Man about the True Will and High Works of God. Man changed, burned and hide original Words of a Man called later Jesus Christ, and wrote scriptures which they preferred and started to elevate prophets above Christ. Only prophets purified in perfection into Love and Harmony are able, in the absence of a Messiah, to explain the directions into God's True Will and High Works.

Our human life was created for loving and kind human Souls, and not for Ego's and Prideful Man. Did you Never asked yourself, what is the reason, why God designed an Apocalypse for the End Times and to create a new civilization without Sin, by the Son of God, a Messiah? Is it so difficult to see, that God desired all of Man living mainly in Harmony, Happiness and Health in our world, as One, who live without Sin, without creating disharmony, negativity and destroying Mankind and Earth? How do you expect to live in Heaven? Yes, always by God's Love, in Happiness, Harmony and Health. As above, so below. What desires God for Man? Yes, to create a part of Heaven on Earth. All disharmony and negativity on Earth are ALL created by Man's choices, and Not by God. But, Man in all their scriptures state, "God rules everything on Earth", which is clearly incorrect. What is the purpose of Man's free will, if God decides what happens in a personal life or society? Totally none. You have free will, to learn during life, to prefer Good choices above Bad choices.

God has evolved into a wonderful, unconditional loving, pure harmonious and highly intelligent being, raised it's energetic frequencies unto the highest frequencies of Love and Harmony. God knows in high perfection, what is good and loving for all Man and Nature on Earth. God guides with the Seven Guidance's all of Man in a human life. What has been proven in my Works. What should be the reason for all of Man to find the Truths of Life, and to listen to God's True Ways.

All people are Equal to each other, only their choices in life differ. All people need guidance, some more than others, which we all can agree upon. Still, they need all to find a way to guide their thoughts and ways, into more harmonious and loving directions. Because I know God's True Will and High Works and live by God's True Ways, I am able to show Man the narrow path in life unto Salvation. A narrow path, which all people in the past did not see or chose to walk. If millions of people of a religion in the past walked this path, then it would not have been called a narrow path. A Christ, or a Messiah is here for Everyone and not only for One religion, race or a group of people. There is only One God, and One Messiah per Age, for One World population. Isn't this preferable?

What means I am here to guide all religions, Christianity, Judaism, Muslim, Hindu, and many other equal religions, but also to guide Spirituals, non religious or others. All in all, to guide all Good and Bad people with ears in life. I am Not here to create wars, to kill, to enslave, to punish or to destroy, as many prophets have claimed in their scriptures. Why not? Because, that is Not in line with God's True Ways. Then, many people shall state, "but God destroys and kills Man with the Apocalypse." No, God doesn't. The universe is created in such a way, designed by God, to sustain the harmonious equilibrium in our space. When something is so chaotic and disharmonious like Mankind and Earth is right now, the harmonious equilibrium shall restore harmony and balance within Man and Earth. Man should not forget the Apocalypse shall happen, because of Man's ego choices Not to evolve. Man was unwilling to restore Balance and Harmony over 12 Ages on Earth. Man created the dire Apocalypse on Earth. What I said before, choices are causes, and causes have consequences in life.

Personally, I do not see any difference, if people use names as a Messiah, Christ, Mahdi, Maitreya, Kalki or any other name. It is just a name for the Messenger of God. If you name God; God, Allah, or G-d, Lord, the Man, Father, Source or any other Word implying the same, it is still the same God. If you study prophecies of all these religions or ideologies you see, they speak all about One person, who creates a harmonious human life without Sin after an Apocalypse or havoc on Earth. Is it really so hard to believe, that they all spoke about the same God and the same True Messiah? Over times, many people in their own ways, tried to learn God's True Will and High Works. If people would have worked and thought together as One, they would have known more about God, Souls and life.

If Man focuses on the differences between each other, than Man only divides each other more and more. If Man focusses on what they have in common, than Man is able to Unite each other, as One. If you have discrepancies in your thoughts and ways, why not find the best thoughts and ways you can find, that explains the Truths in Life. For all situations and happenings, there is only One Truth.

Man's Preference of Ego and Pride results in Bad Consequences

If nobody listens and chooses with free will, to live these Words, there shall be darkness for almost all people on Earth and they shall be lost for centuries in their true In-between life. Then there shall be only 144000 survivors of 7.7 billion people on Earth. What could have been known by Man for thousands of years, just by understanding John's Book of Revelation. If Man were willing to evolve words of their scriptures and ideologies as One, without using Ego and Pride, they would've known.

The survivors are the Chosen Ones, who shall survive into a restored New Earth, to start over again in Harmony and Love. Chosen Ones, who starts to live by God's True Ways expressed in my Words. Only they, shall become Ready. Truthfully said, these people are Not orthodox people from any religion, who do not like change. Religions shall not exist after the Apocalypse, only the Words of the Messiah shall exist in an "Everlasting Gospel", for people of the Age of Aquarius. Man can only be Saved, if they listen, seal and live my Words. To start living already a harmonious human life without Sin and almost no Ego perspective, as God created our human lives to be. Judgment of Man happens without any compromises, or any short cuts. If a Man speaks only in Truth, by Confidence, Love and Harmony, it may sound as arrogant or emotionless for many people with Ego and Pride.

Why do I reveal myself before the Apocalypse, in the white cloud of the internet, that moves in a speed, as lightening from East to West, to meet people? Because, this Number of 144000 people can be changed, can be increased, into any number Man would desire. If more people shall change their thoughts and ways, by working at their thoughts, memories and personality, then more human Souls in this human life and in their In-between life can be SAVED. That is, what true Salvation of Man by the Messiah is all about. Everyone can belong to the Chosen Ones, if they endure the ordeals, and live only by God's True Ways, then they shall enter New Earth. Everyone else can be Saved also, and become Ready with a purified human Soul for their Godly Souls to return back to Heaven.

It is just your choice to do the Work, now in a human life, and/or in your In-between life after death. There are no short cuts for anyone. There is only One narrow path, by living with God's True Ways. Being a Holy human Soul in your human vessel on Earth, to be able to enter a restored new Earth. Or to be Ready, after you die, to merge into your Godly Soul, and return finally Home, in Heaven.

In this letter you have heard, what happens after death of your human vessel and what is expected from you as a human Soul having temporary a human life, or as a human Soul in an In-between life. These Words are from God's True Will and High Works destined to be heard by all of Man. Words which were never understood correctly by Prophets. These Words are the same for all, whether you believe in God, these Words, or not. Still, you shall experience everything, what is written in this letter, and what is described in the small Book of Life, The Age of Harmony 2025 – 4185. It's essential, that every Man on Earth know these Words, so they have a free choice to be Saved. Do you desire to be my friend and work together as One, to Save more human Souls on Earth? Then feel free to share this document with everyone, to make their Choice. Time left, is short.

Life is all about thoughts and choices.
Choose well.

In Name of God,
The Messiah of the Age of Aquarius,

Thomas Francisco Pelgero
